

PLATFORM THE HARD PROBLEM

Effort Will Be Made to Catch Votes Without Promising Too Much.

SCHEMING AT CHICAGO
EVEN THE REPUBLICAN LEADERS FEAR BRYAN.

Chicago, June 12.—The product of the day's developments as to the platform was negative rather than positive. Senator Hopkins, who is conceded the chairmanship of the resolutions committee, arrived during the day from New York, out in view of the position he is to hold he declined to talk for quotation. Soon after arrival he met Wade Ellis, attorney general of Ohio, who had just brought from Washington the Roosevelt-Taft platform ideas. Several other prominent politicians, who are likely to be members of the resolutions committee, conferred also with these gentlemen.

Conservative Platform.
The general sentiment expressed by those who talked on the subject of the platform seemed to tend toward conservatism. The idea was expressed that the platform should be broad enough to cover every Republican to stand on and resolutions which might be called "Bryan-esque" would lead substantial business men to vote for Bryan if not for him. Denver, basing their action on the belief that if elected Bryan's hands would be tied by the Republican promises made by that platform possibly would be fulfilled by a Republican congress.

The Tariff Plank.
Senator Hopkins indicated that the maximum and minimum tariff idea undoubtedly would be placed in the tariff plank to indicate just what the party expected to do with the tariff question. Senator Cullen gave it as his opinion that the tariff plank should be plain and devoid of quibbles, so that no one could misunderstand that the party promised revision immediately after inauguration.

Reformers on Deck.
There is a growing army of reformers who are anxious to have the Republican party adopt their pet ideas. The local option people are here; likewise the prohibitionists, as well as those who do not manufacture of alcoholic liquors to be used as a beverage to be stopped altogether, and the prohibitionists, as well as those who do not manufacture of alcoholic liquors to be used as a beverage to be stopped altogether, and the prohibitionists, as well as those who do not manufacture of alcoholic liquors to be used as a beverage to be stopped altogether.

All Making a Campaign.
All of these elements are making their campaigns with prospective members of the resolutions committee and their work may have some future influence on the platform, the real work of framing up the platform will not begin until the convention appoints the committee on resolutions. The committee has had opportunity to count noses and ascertain whether the majority be radical or conservative.

Wants of Porto Ricans.
Robert H. Todd and Francisco P. Quiroga, delegates from Porto Rico, arrived during the day. They have certain demands which they expect to make of the committee on resolutions. They say: "We will ask two things of the committee on resolutions. The first of these is that the party pledge itself to give citizenship to Porto Ricans on reasonable terms. The second is a definition of the status of Porto Rico. At present we are citizens of Porto Rico, but we do not rule. We are not citizens of the United States, although we belong to the United States and have the flag of the country. We are governed by Americans or by a council of eleven, of whom six are Americans, appointed by the president, and five are Porto Ricans, whose opinions are ignored by the six."

OPEN TO ARLEE.
Butte, Mont., June 12.—A miner special from Missoula states that the tracks of the Northern Pacific have been opened west of that place as far as Arlee. The first train to leave Missoula for two weeks left at 10 o'clock this morning, packed with passengers, who have been marooned for two weeks. A transfer will be made at Arlee. Among the passengers to leave Missoula this morning is the Tacoma Baseball club, bound for Spokane.

TOUR OF WU TING FANG.
South Bend, Ind., June 12.—Wu Ting Fang, Chinese minister to the United States, today toured the factory district of South Bend by order of the Chinese imperial government, his observations being expected to bring about reforms in the factories in China. Wu is also making an inspection of prisoners, and yesterday visited the penitentiary at Michigan City.

NO THIRD TERM.
St. Paul, Minn., June 12.—Governor Johnson in a written statement today, which he gave out for publication, says that he will not be a candidate for re-nomination for governor of Minnesota for a third term. He also says that if nominated he will not accept, as he is opposed to the third term idea.

Davis Shoe Company

Ogden News

Office 410 Twenty-Fifth Street.

Ogden, Saturday, June 3.

WILL INCREASE CAPITAL

Rapid Transit Company Wants Money to Make Extensions and Betterments.

Vague rumors of the past ten days to the effect that the Harriman interests are attempting to secure control of the Ogden Rapid Transit company have materialized into positive statements from a reasonably authentic source and it is said that Harriman has been quietly buying up stock in an effort to oust David Eccles from control of the local street railway system.

One of the directors, Charles H. Kirchner, asserted yesterday that so far as the stories "I don't think the Harriman interests want the Ogden street railway," he said, "if they do, they can undoubtedly secure it by paying our price, or anyone else, for that matter."

"I have no knowledge of the manner in which this story got out," he continued. "There is a movement on foot for the reorganization of the company, but this has nothing whatever to do with so-called negotiations which are said to have been pending between Harriman's agents and the company."

The Ogden & Northwestern line to the Utah Hot Springs was bonded for \$200,000 for the purpose of securing the capitalization for \$100,000. All of the bonds and all of the stock is out, and in order to secure Wall avenue for proposed extensions along the Ogden & Northwestern line, it is necessary to increase its capitalization to \$500,000.

FIRE INSURANCE ROW.

Agents Charge Discrimination Against Ogden.

Carl Scheid, manager of the Utah branch of the Pacific board of fire underwriters, was in Ogden yesterday afternoon in connection with a fight which has been started by the chamber of commerce and local insurance agents against the local fire insurance companies.

It is claimed that the basic rate on Salt Lake residences here is 50 cents, while in Salt Lake the rate is only 25 cents for the same protection. On frame dwellings the rate here is 50 cents and in Salt Lake is 30 cents. Some days ago local agents took the matter up with Mr. Scheid, so they expected to receive little satisfaction. The question was then carried over his head and submitted to the higher officials of the board at San Francisco.

This was said to be the beginning of a battle which the agents who have taken up the fight assert they will see through to the finish. J. M. Forsyth is one of the local insurance writers who has been most active in the matter, and the chamber of commerce has appointed a committee to investigate. Some of the agents have asserted that unless Ogden is granted the same rates as in Salt Lake, they will start writing for the non-board companies, which, it is said, would be glad to take insurance at the lower rate.

SETTLEMENT ON TUESDAY.

Bamberger Road's Difficulties Expected to Be Ended Next Week.

Final settlement of the difficulties of Simon Bamberger is expected to be reached next Tuesday morning, when attorneys for the Union Pacific and for the Salt Lake & Ogden railroad will argue the question of the latter road crossing the tracks of the Union Pacific at Wall avenue and the "Thru" first street. It is expected that terms and conditions will be decided upon by the new crossing by Judge Howell on that date, after which the way will be clear for Mr. Bamberger to enter Ogden. The tracking has been completed on both sides of the crossing and repairs made on the road. It was done by recent heavy storms on the Sand Ridge. With the settlement of the crossing litigation definitely the final work will be done and it is expected to have trains in operation from Salt Lake within ten days.

TRIED TO KILL HIMSELF.

Electrician Essays Death After Prolonged Spree.

John Wise, an electrician in the employ of the Bell Telephone company, attempted to strangle himself to death tonight in a cell at the city jail. Wise was arrested early in the afternoon while attempting to disrobe himself near the Reed hotel. He was picked up and sent to the police station, it being thought at the time that he was insane. Another prisoner in the same cell discovered him dangling from his necktie, which he had knotted around his throat. Wise was taken down by him almost unconscious. City Physician Browning was sent for and succeeded in arousing him. Wise has been confined in the cell since the afternoon of his arrest.

OGDEN BRIEFS.

APPRAISERS NAMED.—In the district court yesterday an order was entered appointing H. P. Green, Thomas W. Peck and William J. Bartlett appraisers for the estate of Lewis Rawson et al., minors.

GONE TO CHICAGO.—Charles H. Hollingsworth left yesterday morning for Chicago, where he goes on business and to attend the Republican national convention.

FATHER SHEEHAN IN TOWN.—Father Sheehan of Ely, Nev., is in Ogden, the guest of Father P. M. Cheshire, who died last Tuesday in a Salt Lake hospital, were conducted in the funeral home yesterday, Bishop D. H. Ensign presiding.

PIANO RECITAL.—A well attended piano recital was given by the pupils of Squire Cook at the First Methodist church last evening. In addition to the work of the pupils, an arrangement for the piano for the orchestral accompaniment to the Beethoven concert was given by Mr. Cook.

TEEN DAYS FOR BEGGAR.—Desk Sergeant Joe Critchlow, after chasing a man who had been begging from house to house for fully six blocks, succeeded in capturing him. The fellow gave his name as Richard Cameron, and had been frightening women in the neighborhood of Twenty-sixth street and Monroe avenue. He was sentenced to ten days by the police judge.

BRINGS HOME A BRIDE.—S. Iida, cashier of the Japanese-American hotel, returned yesterday from San Francisco with a Japanese bride. The marriage was performed in one of the San Francisco hotels last night. The bride was the culmination of a romantic courtship dating back to the days when Iida and his bride were children in Nippon. Both are well educated, and the bride was for several years a tutor to the children of royalty in her native home.

HEWLETT'S Teas

BANK CLEARINGS INCREASE

Business Activity Indicates Returning Prosperity.

Bank clearings in Salt Lake continue to break last year's record from time to time. Yesterday the clearings were \$270,000 more than they were on the same day last year. The bank clearings yesterday were \$1,227,286.78. On June 12, 1907, they were \$852,808.70.

With the rush of building activity which will close this summer it is believed that in a very short time the clearings will be maintained at a daily average above those of last year.

There is a general feeling that the tide of prosperity has again reached Salt Lake and the surrounding territory.

MAGAZINES.

THE DELINEATOR.—Of practical interest to the housewife is the June number of this splendid magazine. Every page contains useful hints which appeal to those who would know "how to do" things. There are news notes of fashion, and suggestions that will benefit and help the busy housewife in the culinary department. It ranks as one of the best of the women's magazine.

PEOPLE'S.—Every one gets tired of himself sometimes, and wants to be somebody else—to take a day off. In the People's Magazine for June there is a tale by Porter Emerson Browne called "The Return to Eden," in which an irresistible gentleman of the field grows most inexpressibly weary of his prosperous condition, and suddenly takes a hankering for a night off, to do all the things his position—and his wife—forbid. He is a cop and a patrol wagon, and a gloriously intoxicated, but still unregenerate Irishman. Aside from this rollicking tale, the June issue contains a complete novel, sixteen other capital short stories, a dramatic department and several poems and anecdotes. A partial section of thirty-two pages, showing scenes from the latest plays, completes this magazine of high-grade fiction.

SMITH'S.—In general appearance, as well as in its literary and artistic contents, the June number of Smith's Magazine is one of the best numbers ever issued and certainly one of the most attractive magazines on the stands. The sixteen photographs complete novel, sixteen other capital short stories, a dramatic department and several poems and anecdotes. A partial section of thirty-two pages, showing scenes from the latest plays, completes this magazine of high-grade fiction.
